

Deluxe Knee Wedge

- ➔ Elevates legs for better circulation
- ➔ Helps alleviate back pain by placing the lumbar spine in mild flexion
- ➔ Made from the highest quality fabric for increased comfort

Comfort and Recovery

The Deluxe Knee Wedge places the legs in a comfortable position while lying down. Elevating the legs above heart level, the wedge takes pressure off sore knees and helps reduce numbness or swelling. The Deluxe Knee Wedge can also help alleviate lower back pain and tension by placing the lumbar spine in mild flexion.

The Deluxe Knee Wedge can assist in recovery from surgical procedures, especially lower body procedures. The wedge keeps swollen areas (particularly the thigh and knee area) comfortably elevated, promoting better blood circulation.

Quality and Convenience

The Deluxe Knee Wedge is constructed from precision-cut, high quality foam. The plush polyester cover is soft to the touch and can be removed easily for handwashing. The special two-piece design folds flat for easy storage and delivery.
